Virginia

AIDS Rate per 100,000

8.2*

Since the AIDS rate in this State has dropped below 10 cases per 100,000 population, it is not currently a designated State. CSAT has instructed this State to stop allocating SAPT funds for HIV early intervention activities.

State Narrative Summary

Through a memorandum of agreement with the HIV/sexually transmitted disease clinic of the Department of Health, early intervention services for HIV target clients who have substance abuse problems. As part of the medical history taken when clients are admitted to the outpatient clinic, clients are routinely asked about their

*The most recent data published prior to October 1, 2007 by the CDC is Table 14, Reported AIDS cases and annual rates (per 100,000 population), by area of residence and age category, cumulative through 2005-United States, HIV/AIDS Surveillance Report 2005 Vol. 17, U.S. Department of Health and Human services, Centers for Disease Control and Prevention, National Center for HIV, STD, and TB Prevention, Division of HIV/AIDS, Prevention, Surveillance, and Epidemiology. Single copies of the report are available through the CDC National Prevention Information Network, 1-800-458-5231 or 301-562-1098 or http://www.cdc.gov/hiv/topics/surveillance/resources/reports/2005report/table14.htm

HIV status. Early intervention services, which were expected to continue through Fiscal Year 2008, included rapid HIV testing, pre- and post-test counseling, referral services, risk assessment, and outreach.

Full State Narrative

FY 2005 (COMPLIANCE)

Va DMHMRSAS continued to allocate 5% of its total award to 22 of the 40 subrecipient programs (CSBs) to provide:

- retest counseling for HIV/AIDS;
- testing to confirm the diagnosis, or to diagnose the extent of and provide treatment for HIV/AIDS;
- appropriate post-test counseling; and
- therapeutic measures to prevent and treat the deterioration of the immune system and conditions arising from the disease.

In addition, Va DMHMRSAS provided funding and technical assistance to subrecipients for the following:

- to provide outreach interventions targeting out-of-treatment drug users;
- to participate in collaborative activities in the community to ensure that consumers had full access to a continuum of HIV and SA services;
- to provide HIV and communicable disease prevention interventions for consumers in "interim services"; and
- to provide training and education for substance abuse services treatment staff and other providers in the community.

Funds were distributed to the 22 subrecipients selected on the basis of incidence of HIV and other sexually transmitted diseases within the catchment area of the subrecipients. Allocation decisions were based on these incidence data.

The Department continued to implement a Memorandum-of-Agreement with the Virginia Department of General Services, Division of Consolidated Laboratories (DCLS) to provide OraSure (oral mucosal transudate "OMT") testing services, laboratory processing services through April 2006. Subrecipient continued to report program utilization on substance abuse services consumers receiving services provided by subrecipients with HIV Early Intervention Projects on a mid-year and end-of the year basis.

FY 2007 (Progress)

Va DMHMRSAS continued the activities as described above. In addition Va DMHMRAS provided technical assistance to subrecipients, and facilitated liaison relationships between subrecipients and other state and community-based resources for HIV/AIDS (e.g., HIV Community Planning Group-CPG, Ryan White Care Consortia, etc.), and monitored the 23 subrecipients' use of the HIV early intervention set-aside funds through review of fiscal and programmatic reports.

In January 2007, Va DMHMRSAS conducted Trinity Biotech Third Generation training on Rapid HIV Testing (blood stick, serology and plasma) initiative in collaboration with the Virginia Department of Health, among the 23 subrecipients that are currently receiving HIV/AIDS set-aside funds. Two state health department staff also attended the training.

FY 2008 (INTENDED USE)

Since the AIDS rate in Virginia has dropped below 10 cases per 100,000 population, Virginia is not currently a designated state and has been instructed by CSAT to stop allocating SAPT funds for HIV early intervention activities. As described in the table below, for communities where the AIDS rate has remained above 10 per 100,000, VaDMHMRSAS has allowed the subrecipient CSBs to reallocate state general funds to support HIV early intervention services, as follows:

STATE GENERAL FUND REALLOCATION					
State	General Fund CSB HIV EI Funding				
Alexandria	\$62,776				
Arlington	\$64,000				
Crossroads	\$45,549				
Danville Pittsylvania	\$63,390				
District 19	\$95,634				
Fairfax Falls Church	\$45,536				
Hampton NN	\$177,198				
Henrico	\$30,729				
Norfolk	\$249,985				
Portsmouth	\$93,374				
Richmond	\$247,237				
Virginia Beach	\$102,572				
Western Tidewater	\$45,907				
Total	\$1,323,887				

HIV Early Intervention Services

Va DMHMRSAS distributed five percent (5%) of its treatment award to 22 subrecipients serving jurisdictions in areas of the State that demonstrated the highest level of need. to support the integration of HIV services with substance abuse treatment. Specifically, these subrecipients must provide:

- Pre-test counseling for HIV/AIDS;
- Testing to confirm the diagnosis of AIDS, or to diagnose the extent of, and provide treatment for, the disease;
- Appropriate post-test counseling; and
- Providing therapeutic measures for preventing and treating the deterioration of the immune system, and conditions arising from the disease.
